## SOFTWARE RELEASE HISTORY FOR REFERENCE

### 1. Nemo1 Install – Build 4

**Filename: Nemo1Install.msi**

**Mfg Load Start Date: Start of Nemo1 Product**

- Contains these versions
  - Barker Manager v1.02
  - OCM 1.33a
  - DVA\_SS v0.97f
  - Espial 5.1.6
  - No Streaming Server Watchdog

### 2. Nemo1 Patch 1

**Filename: Nemo1\_OSP1.vbs OR Nemo1Fix1\_6.vbs and Nemo1Fix1\_6.exe** (If Nemo1\_OSP1.vbs exists, run it. If not, run Nemo1Fix1\_6.exe then Nemo1Fix1\_6.vbs)

**Mfg Load Start Date: Start of Nemo1 Product**

- Performs the following:
  - Creates the missing Apache logs directory:
  - C:\Program Files\Apache Group\Apache\logs
  - Changes c:\content\active\config.js - Sets mediapath to q:
  - Copies nemo OCXInstall to c:\progeny\ocxinstall\
  - Updates database - cfginfotbl, sets AtHotelUrl to <http://server.rack.ocv.com>

### 3. NEMO1 Multipatch 1

**Filename: Update\_Nemo1\_Multipatch\_1.exe**

**Mfg Load Start Date: 10/11/05**

Multipatch\_1 “Wraps” the multiple patches into one install for ease of install. See below for details on each patch installed by multipatch.

#### ➤ **SUMMARY OF VERSIONS INSTALLED BY MULTIPATCH:**

- Barker Manager v1.03
- OCM v1.33e (Will not shut down after package fails.)
- Streaming Server v1.00
- Streaming Server Watchdog v0.04
- Espial 5.1.4

---

➤ **Nemo1 Patch2**

**Filename: Nemo1\_Patch\_2.exe**

**Mfg Load Start Date: 8/29/05**

- Barker Manager v1.03
- OCM 1.33c
- OCM Watchdog v1.19
- DVA\_SS v0.98f (SS Watchdog, FF Hold-down button problem, SS resets)
- Streaming Server Watchdog v0.04

➤ **DVA\_SS Update v1.00**

**Filename: DVA\_SS\_Update\_v100.exe**

**Mfg Load Start Date: 9/15/05**

- Updates Streaming Server to v1.00 (Detects stuttering and corrects)

➤ **OCM 1.33e**

**Mfg Load Start Date: 9/15/05**

- OCM v1.33e (Will not shut down after package fails.)

➤ **Espial 5.1.4 Revert Nemo1**

**Filename: Espial514Revert.exe**

**Mfg Load Start Date: 9/27/05**

- Espial 5.1.4 (Check buildespial.txt in file c:\progeny\ebrowser and c:\progeny\clientruntime\progeny\ebrowser for version)

---

#### **4. Streaming Server Update v1.01**

**Filename: DVA\_SS\_Update\_v101.exe**

**Mfg Load Start Date: Not QA Released(TSE was in possession of this)**

- DVA\_SS v1.01(STB not responding correctly causes SS to stop processing)

#### **5. SFDS Mux (Nemo1 v1.1) & SFDS(Nemo1 v1.1)**

**Mfg Load Start Date: 10/26/05 (On multi-rack installs only....until Build 5)**

- v1.1 (Secondary rack IP's dropping out of rack list in multi-rack sites)

#### **6. OCM 1.33f**

**Mfg Load Start Date: 11/2/05**

- OCM v1.33f (Added script command to be able to power cycle clients)
- OCM Watchdog v1.20(Nemo1 Build 4 had reverted this back to 1.19)

#### **7. OCX Install Update v2.8b (Nemo1)**

**Mfg Load Start Date: 11/2/05**

- OCXInstall v2.8b (Nemo1) (Added Nemo1 support for the smart update feature and changes SoftwareConfig to accommodate legacy and Nemo 1)

## **8. Streaming Server Update v1.01d**

**Filename: DVA\_SS\_Update\_v101d.exe**

**Mfg Load Start Date: 12/12/05**

- DVA\_SS v1.01d

## **9. Client Image Update 12/7/05**

**Filename: ClientBoot.sdi**

**Mfg Load Start Date: 12/12/05**

- Licensed version of Client Image. Will not expire.

## **10. OCM 1.33g**

**Mfg Load Start Date: 12/12/05**

- OCM v1.33g (Added script command to be able to clear single wildcards)

## **11. Nemo1 Install – Build 5**

**Filename: Nemo1Install.msi**

**Mfg Load Start Date: 12/18/05**

- Contains these versions
  - Barker Manager v1.03
  - OCM 1.33f
  - OCM Watchdog v1.20
  - DVA\_SS v1.01a
  - DVA Streaming Server Watchdog v0.04
  - Espial 5.1.4
  - OCX Install v2.8b
  - SFDmux v1.1
  - SFDS v1.1

## **12. DVA\_SS Update v1.01d 12/15/05**

**Filename: DVA\_SS\_Update\_v101d.exe**

**Mfg Load Start Date: 12/15/05**

## **13. DVA\_SS Update v1.02b 3/1/06**

**Filename: DVA\_SS\_Update\_v102b.exe**

**Mfg Load Start Date: 3/1/06**

- Includes DVA\_WD v1.00

## **14. OCM 1.35**

**Mfg Load Start Date: 4/1/06**

- OCM v1.35 (Changes for EOD)

## **15. OCM 1.35c**

**Mfg Load Start Date: 4/27/06**

- OCM v1.35c (Changes for X306M Sat Catcher)

## **16. Yellowbrix v2.1.4 for Nemo1**

**Mfg Load Start Date: 12/06**

- Requires Yellowbrix support patch for Nemo1(wipsc.exe)(pn 97-00264-01) prior to installation

## **17. Espial 5.1.13**

**Mfg Load Start Date: 12/06**

- Requires Yellowbrix 2.1.4 to be installed prior to installing Espial 5.1.13

## **18. DVA\_SS Update v1.06 1/07**

**Filename: DVA\_SS\_Form.exe (Copy and replace in C:\progeny\DVA\_SS directory)**

**Mfg Load Start Date: 1/07**

- DVA\_SS revised to correct issues with Nemo1 Mega rack power cycling incorrect STB's due to the Barker STB being in position 1 instead of position 24.
- V1.06 requires Nemo1 Mega Registry Patch(97-00273-01) or OCV Configure Network script(97-00274-01) to be installed first. These two scripts revise the registry for DVA\_SS v1.06
